

IMPORTANT NOTE:

What is KEPASS?

Project co-founded by the European Union, which aims to integrate the Adriatic School systems for a more competitive secondary education in the Adriatic area and to create opportunities for students' mobility and for reciprocal recognition of secondary school programs and diplomas, thus contributing to increasing connections between the educational system and the Adriatic labor market.

KEPASS

- » Will give YOU the possibility to attend a trimester in a foreign school of an Adriatic country
- » Will make YOU s aware of social and cultural changes, constantly growing in a more globalized environment, throughout the exposure to other cultures.
- » Will allow YOU to broaden YOUR possibilities in terms of university choices.
- » Will empower YOU to be more competitive in the global labor market.
- » Will give YOU the possibility to learn through the experience and get to know languages and cultures of other Adriatic countries.

- » The mobility programme will start in September 2014 and will end in December 2014
- » YOU will be followed and assisted by experienced tutors both for what regards the educational and the extra-curricular side. Moreover YOU will be able to take part to afternoon activities. YOU will be hosted in residences, students' houses, boarding schools or other venues provided by the hosting schools.

All costs related to the mobility programme (travel and accommodation and logistical/administrative issues) will be covered by the project KEPASS. No additional charges will fall on YOU.

THIS IS THE UNIQUE OPPORTUNITY- GRAB IT!
